SINCE 1882

► HINGE HT0804

The HT0804 hinge allows for a fully-concealed installation when the door is closed. The hinge features adjustability in 3 dimensions which allows for greater control of the door position over the life of the installed hinge. Available in a number of sizes with leaf heights ranging from 155mm (6.1") to 280mm (11.02").

Hinge specification is contingent on door conditions--including weight, height, thickness, and jamb and casing details.
